Summary

I am a Self-taught Full Stack Developer with 2 years of practical experience, specializing in front-end development using React.js and Next.js, with a strong foundation in the MERN stack (MongoDB, Express.js, React.js, Node.js).I've contributed to the development of both static and dynamic web applications while working with software companies, focusing on building fast, scalable, and user-friendly interfaces. Proficient in Redux, React Hooks, RESTful API integration, and component-based architecture, I consistently deliver clean and maintainable code.I also bring hands-on experience with tools and frameworks such as Git, Material UI, and Tailwind CSS. Passionate about modern web technologies, I thrive in collaborative environments that value innovation, real-time functionality, and continuous learning.

EDUCATION

Luminar Technolab Institute of Data Science & Software Training Center   **2022 – 2023**
MERN Stack Development - Full stack web development   *Kochi, Kerala*

Grace Valley College of Arts and Science, Malappuram   **2018 – 2021**
B.Com - Computer Application   *malappuram, kerala*

COURSEWORK / SKILLS

- React JS
- Next JS
- OOP Concepts
- UI UX Designs
- Node.js
- Express.js
- AJAX
- DOM manipulation
- RESTful APIs
- Responsive Design
- TypeScript
- Vite JS
- Redux
- MongoDB
- React Hooks
- JavaScript (ES6+)
- Material UI
- Tailwind CSS
- HTML5, CSS3
- Git / GitHub

PROJECTS

Full-Stack eCommerce Platform ⬀ | React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Tailwind CSS

- Built a full-featured eCommerce application with intuitive user interfaces and responsive design for seamless user experience. .
- Implemented dynamic shopping cart functionality, product listing, product search, and pagination features.
- Enabled users to add product reviews and ratings, and displayed top-rated products in a carousel format.
- Created a user profile system with order history and profile update options.
- Built a robust admin dashboard to manage products, users, and orders efficiently.
- Integrated real-time order tracking with the ability to mark orders as delivered.
- Used Redux Toolkit for scalable and maintainable state management across the application.
- Seeded initial data (users and products) into MongoDB using a custom database seeder script for testing and development.

Doctor Appointment Application ⬀ | Frontend: React, Backend: Node.js, Express.js, Database: MongoDB

- Developed a web-based doctor appointment system with three main interfaces: Admin, Doctor, and Patient panels.
- Managed state with Redux for real-time updates across user profiles and appointment schedules.
- Secured the platform with JWT Authentication for login and registration, ensuring data privacy.
- Used MongoDB to handle doctor-patient profiles and appointment details efficiently.
- Doctors can approve or reject appointment requests, update profiles, and manage notifications.
- *Admins* oversee doctor approvals, ensuring a controlled and reliable appointment system.

EXPERIENCE

Willowy Infotech Private Limited ↗   **Aug 2024 – Mar 2025**
Frontend Developer   *Kozhikode, Kerala*

  ∗ Developed responsive, high-performance web applications using **ReactJS** and **Redux**, adhering to modern front-end architecture.
  ∗ Collaborated with cross-functional backend teams to ensure efficient **RESTful API integration** and seamless data flow.
  ∗ Engineered custom UI components using **Material UI** and **Tailwind CSS**, enhancing the visual consistency across projects.
  ∗ Played a key role in integrating **agile methodologies** into daily workflows, promoting team collaboration and faster feature delivery.
  ∗ Designed mobile-first layouts with responsive design principles, ensuring compatibility across multiple devices and browsers.
  ∗ Gained hands-on experience in web development by creating static websites for clients, enhancing design and user experience.
  ∗ Delivered static and dynamic websites tailored to client needs, focusing on optimal **UI/UX design**, performance, and maintainability.

WexorAI ↗   **Feb 2024 – Jul 2024**
Frontend Developer   *Kozhikode, Kerala*

  • Delivered enhanced user experiences in complex projects like WhatsApp bulk messaging software using NextJS and Context API.
  • Collaborated with a React Flow specialist to integrate interactive diagrams, improving automation workflow visualization.
  • Ensured real-time data handling and platform sync by implementing efficient **REST API consumption** patterns.
  • Applied **Redux Toolkit** for global state management and built a uniform component library using **Material UI**.
  • Delivered static websites for clients, focusing on fast-loading interfaces and clean, accessible design systems.
  • Developed scalable front-end modules using **Next.js** and **TypeScript**, improving load times and SEO performance by 25%.

Luminer Technolab↗   **Jul 2023 – Dec 2023**
Intern (MERN Stack Development)   *Kochi, Kerala*

  • Gained practical exposure as a **MERN stack developer**, contributing to both frontend and backend logic in full-stack web applications.
  • Built interactive applications like a **Netflix clone** and **ToDo List**, strengthening JavaScript, Express, and React-based workflows.
  • Improved API integration and user interface response using real-time data syncing techniques and component-driven structures.
  • Developed RESTful backends with **Node.js** and **MongoDB**, enhancing performance and reliability in data operations.
  • Strengthened algorithmic thinking through project-level problem-solving and implementation of reusable logic patterns.

TECHNICAL SKILLS

  Languages: HTML 5, CSS, JavaScript ES6+, typescript
  Library/Frameworks: ReactJS, Next.js, Material UI,Context API, Bootstrap,Tailwind
  Version Control: Git/GitHub
  Soft Skills: Problem-Solving,Technical Analysis,Critical Thinking,Analytical Skill , Agile Development, Team Collaboration, Time Management, Adaptability, Fluent in English

CERTIFICATIONS

  • NACTET -ISO 9001:2015 Certified Software Training (National Council for Technology and Training)
  • Luminer Tecnolab Cource Completions Certification (MERN)
  • B.Com with Computer Application (University of Calicut)

DECLARATION

I certify that the information provided in this resume is true and complete to the best of my knowledge. I understand that any false statements or omissions may disqualify me from consideration for employment. I authorize the verification of any and all information listed in this resume.
